New Jersey Democrats have nominated a winning ticket. Hon Leon. Abbett heads it, for Governor.

One of the best Democrats of the country, and one of the most experienced statesmen too, passed away when Hon, S. S. Cox dled.

"LITTLE BILLY" MAHONE isn't having any pic-nic in his race for Governor in Virglnia. Lewis has deserted him, Riddleberger has followed Lewis and the Democratic camp will be full of Republican deserters by election day.

GEORGETOWN is looking up since she got her new railroad-the Kentucky Midland. A twine factory to give employment to three or four hundred hands is to be built soon. The company will be organized this week with a capital of \$100,000. Good for Georgetown.

THE Fleming Gazette man is a spoilsman of the most pronounced character, by the statement that large and extraand refuses to be comforted as long as a ordinary payments had been made." Democrat fills a Federal office. He is Windom's explanation only makes a bad grumbling and growling at Harrison for matter worse. He should have done his spending his time at summer resorts in- figgerin' before the official statement was stead of staying at Washington and dishing out the "pie" to the boys.

BATH County Democrats will hold a primary Saturday, Oct. 19th, to select a ticket to be voted for next August. The Courier-Journal remarks "they are beginning early." Our esteemed contemporary is informed several counties are way ahead of Bath, having nominated a ticket two or three months ago.

"The Maysville Republican challenges the figures of the Bankers' Monthly concerning farm mortgages in certnin States," says the Louisville Times. "It is a strictly business question with the Monthly and a strictly political question with the Republican. Unbiased people will be apt to give the more credence to the Monthly."

THE low water and heavy fogs have thrown most of the packets way out of time. The St. Lawrence did not get in from Cincinnati yesterday till about 9:30 p. m., and the Bonanza, due down last evening, did not make her appearance until this morning after 6 o'clock. The Telegraph, Handy No. 2 and Minnie Bay were also several hours behind.

ERASTUS WINANS is a pretty good business man, and, as a rule, knows what he is talking about. He says that there is enough machinery in American factories to manufacture necessaries for 100,000,-000 people. America has 60,000,000 people, and there is the land that says to the manufacturer, "you shall not manufacture for other countries."-Exchange.

SECRETARY NOBLE has had enough of Tanner's monkeying with the surplus. Affairs in the Pension Office have reached a crisis. The Commissioner has been suspended and a deputy has taken charge, pending an investigation. Such is the news from the National Capital. It will occasion no surprise. Considering Tanner's profligate administration of the office, the wonder is that his superiors delayed acting so long.

The Philadelphia Record says: "The farmers have this year raised a tremen dous wheat crop, for which they will get European prices, less the cost of transportation. But when they buy sugar, lumber, clothing, salt, tools, medicines, tinware, or any other of the thousands of necessaries, they must pay American prices. They sell in the cheapest market and buy in the dearest market. As long as they are satisfied with this kind of trading there is no reason why Harrison shouldn't be President."

The Democrats of Fleming are to be congratulated on their excellent work at the late primary. They nominated a splendid ticket. Even the Fleming Gazette, the Republican organ, admits that the ticket is one that "calls on the Republicans for their very best material." Hon. James P. Harbeson, the nominee for County Judge, is a native of Mason County, and the Gazette in speaking of him says: "He is a life-long Democrat, an able lawyer and a cultured gentleman. By his unswerving devotion and unaltering loyalty he nestles very close to the Fieming County Democratic heart."

"Only six months of a Republican administration have passed," says the New York Star, "yet in that time it has managed, by a combination of reckless extravagance and downright incapacity, to create a general sense of uneasiness regarding the national finances. * * *

A comparison which the result of six months of Harrisonian fluancial policy Cleveland and his Secretaries of the Treasury can only be as creditable to the latter as it is damaging to the 'uninstructed political economist' of Indianapolis."

The Democratic piot to brille Southern Republican Cougressmen and steal the House of Representatives has falled, the Mormons have been defeated in Salt Lake City. John L. Suillvan has been arranged at the bar of justice, and the Bourbon majority in Kentucky is reduced to haif the figures of four years ago. These are depressing days for the Democracy. -Ripley Bee-

The above is a sample of the stuff sent ont by Foraker's Republican Campaign Committee. And this man had the cheek to ask Democrats to support him at his Xenia speech. Every Buckeye Democrat should take especial delight in doing all they can to consign Foraker to

REPORTS from Washington City indicate that the Republicans are uneasy over the heavy increase in the public debt during July and August. They have put Secretary Windom to juggling with the figures to show there was no Increase. ONE: PRICE: SYSTEM

Ever since the beginning of MINER'S SHOE STORE, over fifty years ago, the One Price principle has been strictly adhered to. It is one of the bright features of our business. That it is the fairest, squarest and most satisfactory in all respects, every buyer will admit.

Another thing in this connection: Where one price is the rule, of necessity it means the very lowest cash price; the two are inseparably connected. Think this over and see if the statement is not correct. As a measure of good faith, we mark everything in plain figures, that

LONDON, Sept. 12.—'The inquest in the case of the woman, whose headless body was discovered in the Whitechapel district Tuesday morning, was con meted with closed doors, and extraordinary precautions are taken to prevent the medical testimony in the case being made public.

The rumor is affont, but cannot be traced to an authoritative source, that one of the doctors has pointed out that the surgical work of the field who committed the murder bears a remarkable resemblance in certain features to peculiarities which have frequently been noted by the profession in the work of a well known London surgeon, a man of the highest standing in his profession, but exceedingly eccentric. The police maintain a discreet silence, and refuse to either deny or verify the rumor. They appear to be active, however, and their conduct indicates that they have a clew of some kind. clew of some kind.
